

## **Learning about the World Beyond Clip 6 Transcript**

I'm learning that everyone is completely different and everyone has been created so differently. Everyone has abilities they can use to help others. I think one of the reasons we're put on this is to help other people because we can't do it by ourselves. I think it's also able to see the different talent that people can express, and using what they have been given. Sometimes they're scared to do it, but once you see someone who has a hidden talent and they start using it, it's amazing at what they can do to help others. I think everyone has different abilities that they can use, that's what I've learned.

I learned that even one person can make a difference and even though one person can't do everything, if one person from everywhere joins together we can do a lot more. If one person put in effort they can get more people to put in effort as well, and you can just contribute to a great cause that can make wonders happen.
